

The 2nd International Adult Congenital Cardiology Symposium: Ramathibodi ACHD Excellent Center

11 - 13 January 2017
Radisson Blu Plaza Hotel, Bangkok, Thailand

Dear Colleagues,

I am writing to invite you to our upcoming the 2nd International Adult Congenital Cardiology in Bangkok to be held during Jan 11-13, 2017. Given the success of our inaugural conference, the scientific program of this second symposium will be more advance and sophisticated knowledge contributed by world renown speakers in the field of adult congenital heart.

The unique feature of our second adult congenital cardiology is the designated sessions for the delegates to share their experience regarding adult congenital heart disease (ACHD) management and discuss their cases with the invited speakers as part of "Meet the Expert". The selected delegates for these sessions will get a discount on the registration fee. We do believe the complexity and the problems of congenital heart in our region are distinctive from the other part of the world and we still can puzzle the experts.

We are looking forward to the interactive and pleasant knowledge sharing between the delegates and faculty members of the symposium's scientific committees.

Please share this announcement and brochure with your colleagues, and feel free to contact me directly with any questions.

Thank you very much.

With kind regards,

Alisa Limsuwan, MD
