

ขอเชิญเข้าร่วมการประชุมวิชาการระดับนานาชาติ เรื่อง Mass Casualties Incident Preparedness for Hospital's Medical Team

วันอังคารที่ 10 กรกฎาคม 2561

ณ ห้องบรรยาย 624 อาคารเรียนรวม คณะแพทยศาสตร์โรงพยาบาลรามาธิบดี
เวลา 9.00 – 16.00 น.

Main objectives of the workshop:

- Acquainting the participants with emergency preparedness for mass events contingency plan.
- Coordination and cooperation among the organizations involved with emergency preparedness and management.
- Training team in emergency management, in order to promote their ability to act in mass event and disaster.
- Provide the participants a toolbox for emergency management. This will be obtained by providing the participants a clear definition of the simulation, in order to maintain and improve performance in emergencies and dealing with aspects of training provided by games and are related to management, logistical, organizational and operational aspects.
- Simulation of realistic scenario that is integrated with various services dealing with disaster.

Methods:

- The workshop takes place in a supportive environment: there are no “right or wrong” answers or behaviors and everyone is involved and may express their opinions.
- The participants will undoubtedly improve emergency-oriented skills and acquire a handy toolbox to manage emergencies.
- The expertise will implement a tailor made program for enhancement of emergency preparedness.

The following main topics will be discussed during this workshop:

- Trauma care.
- Trauma system.
- MCS and Disaster Response.
- Site management.
- Population behavior in MCS and Disaster.
- Triage and medical management in emergency.

At the end of the workshop, the participants will take part in a final Tabletop Drill that concludes the lesson learned in the workshop

All workshop materials will be provided to the participants at the end of the workshop in order to use it in the future
